Subject: TSC Quarterly Report Q1 FY19

Attachments: TSC_Quarterly_Report_Q1_FY19_030719.pdf

Greetings,

I am pleased to send you the Office of Research and Development (ORD) Superfund Technical Support Centers (TSCs) Quarterly Report for the first quarter of FY19.

The TSCs play a critical role in the Agency's work to protect the environment and public health by responding to requests for technical assistance from EPA's program offices and regions at Superfund, Resource Conservation & Recovery Act (RCRA), and Brownfield sites. This quarter, ORD's five TSCs recorded 60 activities and provided technical support to 45 Superfund and RCRA sites, responding to requests from 10 regions and in 23 states and territories. A majority of the 60 TSC requests were related to technical advice (27) or document review (15).

The TSC Quarterly Report consolidates information on TSC activities that occurred within your region during the previous quarter. A copy of the report, which includes a one-page summary, is attached. The report will also be available on the ORD intranet at <https://intranet.ord.epa.gov/regional-science/ord-superfund-technical-support-centers-quarterly-report>.

As of September 2018, ORD's TSCs can be accessed through the [C-STARS \(ORD\) Contaminated sites Scientific, Technical, and Risk Support](#) Share Point tool. This tool can assist hazardous waste program managers with locating experts and requesting technical support. ORD's Superfund and Technology Liaisons (STLs) play a key role in the use of C-STARS in the regions and are identified as points-of-contact.

We look forward to continuing the partnership among OLEM, ORD and the regions that allows the Superfund Technical Support Project and the TSCs to provide this critical support to program and regional office Superfund staff.

Mary Ellen Radzikowski
Associate Assistant Administrator
